

Policy Name	Board Evaluation		
Policy #	503	Category	GOVERNANCE
Steward	Board of Governors	Date Approved	July 1, 2023
Next Review Date		Date Reviewed or Revised	Nov. 28, 2024

PURPOSE

The purpose of this policy is to provide the Board of Governors (Board) with a process to evaluate the performance of the Board, both collectively and individually. By taking a holistic approach to assessing its own effectiveness, the Board is able to determine whether it is fulfilling its major responsibilities and achieving its strategic goals.

POLICY

The Board believes that a regular evaluation process to obtain feedback on the performance of the Board, both collectively and individually, is necessary for effective board function and continuous development and improvement. By assessing its own effectiveness, the Board is able to determine whether it is fulfilling its major responsibilities and achieving its strategic goals.

While informal Board evaluation processes may be ongoing throughout the year, a formal evaluation process will be undertaken on an annual basis. The comprehensive and holistic approach to Board evaluation will include:

- An evaluation of Board operations as a whole
- Individual member self-assessments
- Chairperson evaluation
- Vice-chair evaluation
- Committee evaluations (if applicable)
- President and CEO evaluation

PRINCIPLES

The following principles will guide the Boards’ assessment of its effectiveness and efficiency. The evaluation process:

1. Should be constructive in nature to support continuous improvement of board governance.
2. Should be transparent and provide for clear, constructive feedback.
3. The evaluation process will identify key areas and potential strategies for Board development and improvement, and identify strengths and gaps in Board performance.
4. Will review and refresh the understanding of the roles and responsibilities of the Board of Governors.
5. Will provide for important self-reflection on how well the Board is meeting its oversight responsibilities.

6. Will be used as a method to help inform individual governor's development plans, and the ***Annual Board Governance Development Plan***.

PRACTICES

In selecting evaluation tools to annually evaluate Board performance and effectiveness, the Board will observe the following practices:

1. The Board Chairperson will normally lead the selection and/or development and implementation of Board evaluation tools and processes; the President and CEO or an external consultant may be asked to provide research and support in gathering evaluation tools, processes and best practices. The tools and processes used may vary but they must be comprehensive in nature, reflecting the responsibilities of the Board as stated in the Board Charter.
2. Each member of the Board is responsible for participating actively in the assessment process.
3. The process will ensure that individual responses will be held in confidence; only aggregate results will be shared collectively.
4. The Board will consider the consolidated assessment results and will identify board specific strengths and areas for growth. From the evaluations, the Board will also determine focus for future growth and key areas to be included in the Board Governance Development Plan.
5. Individual Board member self-assessments will inform individual professional development plans, and may be used to inform the **Board Experience Matrix (Board Succession Planning and Recruitment Policy)**.
6. Evaluation of Board meetings shall be done quarterly.
